Carbon Monoxide & Your Safety

Carbon Monoxide is an odorless, colorless, and toxic gas. It is the number one cause of accidental poisoning in the US and can cause similar symptoms to the common cold or flu. Install a CO detector on each level of your home and in or near each sleeping area. Keep detectors at least 20 feet from fuel burning appliances and at least 10 feet away from humid locations, i.e. bathrooms and kitchens. If an alarm sounds, call a professional to check your fuel burning appliances. Check with local hardware/supply stores or your local fire department about CO detectors. For more information on Carbon Monoxide, visit the Indiana Department of Homeland Security website: www.in.gov/dhs
